OUR STORY

OUR MISSION: MAKING ART MOVE

CowParade International is driven by a single, bold mission: to make art move. We showcase a dynamic herd of cows, each with its own captivating story, championing the extraordinary artists who breathe life into these masterpieces and spreading their stories across continents.

THE BEGINNING

CowParade's journey began in 1998 with an audacious vision: to celebrate local artistic talent and transform city streets into vibrant canvases. This ambitious idea quickly grew into a global sensation, enchanting cities like Chicago, New York, and many more across every continent.

With over 100 events in more than 80 cities, and the creative genius of 10,000 artists, CowParade has birthed over 8,000 unique bovine artworks. Today, it reigns as the world's largest public art event, continually evolving as a travelling gallery of unparalleled creativity.

OUR PHILOSOPHY

CowParade International is more than an art appreciation; it's a celebration of creativity and profound design. We curate an exclusive collection from past events, continuously updated to feature the most stunning and meaningful designs. Our collection is crafted for those who adore art and embody the CowParade ethos.

THE HERD

Infuse your life with the magic of CowParade through our exquisitely crafted pieces. Selected from thousands of unique designs, each piece is designed and produced with meticulous care and respect for the craft it represents. This approach resonates with art lovers who cherish vibrant creativity and diverse artistry. Our collection is ever-evolving, with new designs introduced to keep the art of CowParade moving with the times.

PRODUCT INFORMATION

The creation of CowParade International figurines is a meticulous and intricate process. Each figurine is an exact replica of a life-sized original event cow or a uniquely designed piece, crafted with precision to capture every detail. Throughout the year, our team selects new cows to enhance our extensive collection.

Once selected, the cows are photographed and sent to our design team, who produce detailed 3D clay models. These models serve as the basis for creating silicone molds, of which we now have over 1,000. These molds produce pristine, white CowParade cows. After sandpapering & dusting, the white models are ready for painting.

Our models are composed of over 90% stoneware—sand and ground pebbles—reflecting our commitment to sustainable materials. We continually explore ways to reduce our environmental impact.

Most of our cows are hand-painted with great care. When designs are too intricate for our painters, we use specially-made decals. After painting, the cows dry for several days before being placed in a low-temperature oven to prevent breakage.

Finally, a protective lacquer is applied to shield the artwork from sunlight and other elements. With proper care, our figurines provide a timeless treasure.

Ceramic

This timeless and elegant material offers a slightly more delicate surface, perfect for showcasing detailed and intricate artwork. Our ceramic collection focuses on medium-sized models, highlighting the material's suitability for complex designs.

**At CowParade International,
our mission is to make art move,
starring a herd of cows
with unique stories to tell.**

Since our inception in 1998, we've turned the streets into a canvas for creativity, captivating audiences worldwide. With over 10,000 artists and more than 8,000 bovine masterpieces, we have become the world's largest public art event.

Our philosophy combines art with social responsibility, with proceeds from our life-sized cows supporting charitable causes. Our pieces, carefully selected and hand-painted, bring this artistic magic into your home, with new designs introduced every six months. Discover the art of the cow with us.
